

TSMC to Build 3nm Fab in Tainan Science Park

Hsinchu, Taiwan, R.O.C. – Sept. 29, 2017 – TSMC today announced that, following careful evaluation, the Company’s planned advanced 3nm fab will be located in the Tainan Science Park to fully leverage the company’s existing cluster advantage and the benefit of a comprehensive supply chain. TSMC recognizes and is grateful for the government’s clear commitments to resolve any issues, including land, water, electricity and environmental protection.
